RISK FACTORS

- An investment in CNL Strategic Capital, LLC is considered speculative and involves a high degree of risk, including the loss of all or a substantial amount of your investment. CNL Strategic Capital is not a short-term investment. This offering is not suitable for everyone; investors are expected to meet the minimum financial suitability standards. See your firm's policies and the Suitability Standards section of the prospectus for complete details.
- CNL Strategic Capital commenced operations in February 2018 and has a limited operating history. It may be unable to successfully implement its business and acquisition strategies or meet its investment objectives. Investors will not have the opportunity to evaluate businesses prior to acquisition.
- CNL Strategic Capital compensates the managers and CNL Securities for services provided and may also compensate the parties when certain operational and performance thresholds are met. Certain management fees will be paid by investors even if they lose money in the investment. See the prospectus for details.
- If CNL Strategic Capital is unable to raise substantially more funds, it will be limited in the number of businesses it acquires, which reduces diversification and increases the potential for volatility.
- Co-investing with other investment groups will increase the risk that third parties may make decisions with which CNL Strategic Capital does not fully agree. In certain cases, CNL Strategic Capital will invest alongside the sub-manager's affiliates or other clients. CNL Strategic Capital will not purchase these businesses unless a majority of the independent directors determines the transaction is fair and reasonable.
- Distributions paid are not solely based upon performance. Distributions are not guaranteed in frequency or amount. Distributions will be paid from net investment income and, in addition, may be paid from offering proceeds, borrowings or reimbursable expense support, which will reduce future cash available for distributions and be dilutive to future shareholders.
- CNL Strategic Capital's strategy is to use leverage in an amount not to exceed 35% of its gross assets, subjecting it to inflation and interest rate risk. However, the board can approve leverage over the 35% limit at any time, if approved by a majority of our independent directors. Leverage can magnify the potential for loss or gain, which can impact an investment's volatility and returns.
- An investment in CNL Strategic Capital is illiquid. Shares sold in this offering will not be listed on an exchange or quoted through a quotation system for the foreseeable future, if ever. If investors are able to sell their shares, they will likely receive less than their purchase price.
- An investment in CNL Strategic Capital does not provide investors with a direct ownership interest in the underlying businesses.
- Controlling interests in privately held businesses, by nature, pose certain incremental risks as compared to public companies, such as the ability to withstand financial distress.
- The businesses acquired may be unable to meet their debt and other obligations which could negatively impact the overall value of the business.
- CNL Strategic Capital will be dependent upon earnings and cash flow from the businesses it acquires in order to generate earnings and cash flow to, first, satisfy its financial obligations and second, to make distributions to shareholders.
- COVID-19 has had a limited impact on CNL Strategic Capital and the pandemic may have an adverse impact on the portfolio. Further, the spread of COVID-19 has caused severe disruptions in the U.S. and global economy and financial markets causing issues of unknown magnitude and duration.
