CNL STRATEGIC CAPITAL ANNOUNCES OPERATING RESULTS FOR FIRST QUARTER 2026

(Orlando, Fla.) May 8, 2026 — CNL Strategic Capital, LLC (CNL Strategic Capital or the Company) seeks to provide current income and long-term appreciation to investors by acquiring controlling equity stakes in combination with loan positions in privately owned middle-market businesses. The Company announced its operating results for the three months ended March 31, 2026.

Highlights:

- As of March 31, 2026, CNL Strategic Capital's portfolio consisted of equity and debt investments in 18 portfolio companies and had approximately \$1.5 billion in total assets, compared with approximately \$1.5 billion as of Dec. 31, 2025.
- For the three months ended March 31, 2026, the Company recognized a net change in unrealized appreciation on investments of approximately \$19.2 million, including unrealized foreign currency gain and had total investment income of approximately \$22.3 million. That compares with a net change in unrealized appreciation on investments of \$9.9 million, including unrealized foreign currency gain, and total investment income of approximately \$16.9 million in the first three months of 2025.
- The annualized return since inception based on net asset value (NAV) and through March 31, 2026, was approximately 11.0% for Class FA shares, 10.0% for Class A shares, 9.1 % for Class T shares, 9.5% for Class D shares, 10.1% for Class I shares and 12.0% for Class S shares.¹ These returns are prior to any applicable sales load and assume shareholders reinvested their distributions.
- For the three months ended year ended March 31, 2026, CNL Strategic Capital received approximately \$44.4 million in net offering proceeds, including approximately \$5.9 million received through the distribution reinvestment plan. Since beginning operations in February 2018 through March 31, 2026, CNL Strategic Capital raised approximately \$1.4 billion, including \$73.9 million received through the distribution reinvestment plan.

Cash distributions declared net of distributions reinvested were funded from the following sources (in thousands):

¹This is not shareholder returns. Total investment return is calculated for each share class as the change in the net asset value for such share class during the period and assuming all distributions are reinvested. The annualized return since inception captures the average annual performance over the return period. It is calculated as a geometric average, meaning that it captures the effects of compounding over time. Since there is no public market for the Company's shares, terminal market value per share is assumed to be equal to net asset value per share on the last day of the period presented. The Company's performance changes over time and currently may be different than that shown above. Past performance is no guarantee of future results. Investment performance is presented without regard to sales load that may be incurred by shareholders in the purchase of the Company's shares. For the period from the date the first share was issued for each respective share class through March 31, 2026. ²Represents percentage of cash distribution declared, net of distribution reinvested for the period presented. ³Excludes \$5,859 and \$5,175 of distributions reinvested pursuant to our distribution reinvestment plan during the three months ended March 31, 2026, and 2025, respectively. ⁴Net investment income includes Expense Support of \$0 and \$9 for the three months ended March 31, 2026, and 2025, respectively. ⁵Consists of distributions made from offering proceeds for the periods presented.
